PRESERVING THE PAST, POWERING THE FUTURE: HOW A MUNICIPAL CEMETERIES DEPARTMENT EMBRACED DIGITAL TRANSFORMATION

The Municipal Cemeteries Department safeguarded centuries of history, with records dating back to the 1800s — maps, lot cards, ledgers, and contracts that told the story of every cemetery under their care. But these invaluable documents were fragile, space-consuming, and time-consuming to access. To protect this irreplaceable history and improve efficiency, the department partnered with Slater Hill Digital to transform their archives for the digital age.

OBJECTIVES

The goal was clear: protect Municipal centuries-old cemetery records while making them easier to use. By digitizing fragile documents, the City aimed to preserve its history, improve day-to-day access for staff, and replace paper-heavy processes with faster, more reliable digital workflows. Another key objective was to free up office space by moving from rows of filing cabinets to a secure, cloud-based system.

CHALLENGES & SOLUTIONS

The Cemeteries Department was working with fragile records dating back to the 1800s, many so delicate they risked damage with every touch. On top of that, the sheer variety of documents—maps, ledgers, contracts—made organization difficult, while bulky filing cabinets slowed access and consumed valuable space.

Slater Hill Digital solved this by carefully scanning every file with high-resolution equipment, then applying OCR to make the records instantly searchable. Everything was organized in SharePoint Online, giving staff a simple way to find what they need while freeing the office from rows of storage cabinets.

KEY BENEFITS

With everything safely digitized, staff can now pull up records in seconds instead of digging through cabinets. Historical documents that were once at risk are preserved for generations to come, while daily work has become faster and less paper-heavy. On top of that, clearing out the old filing systems freed up valuable office space, making the department's environment more practical and efficient.

CLIENT TESTIMONIAL

"Working with Slater Hill Digital has been a game-changer for our department. The team handled our fragile historical records with incredible care, and the digitization process was seamless. Now, our staff can access any document instantly, and our archives are preserved for future generations. This project has truly modernized the way we work."
