

# QRX TECHNOLOGY GROUP ACQUIRES KERR NORTON TO STRENGTHEN LEADERSHIP IN PRINT & IT SOLUTIONS

QRX Technology Group is proud to announce the acquisition of Kerr Norton, a trusted name in Canada's printing and PC supplies industry, effective December 1, 2016. This strategic move strengthens QRX's position as a national leader in managed print services, IT equipment, and sustainable technology solutions.

With over 75 years of experience, Kerr Norton built a strong legacy in cartridge recycling and remanufactured print supplies, aligning perfectly with QRX's commitment to eco-friendly printing and innovation. Together, we're expanding our portfolio of print management services, imaging equipment, and OEM and remanufactured consumables.

This integration enhances our ability to deliver broader product offerings, smarter solutions, and unmatched service across Canada—supporting businesses with scalable, sustainable, and secure print and IT infrastructure.

"As we continue to grow, our focus remains on building lasting partnerships and delivering world-class service," said the QRX executive team.

## OPTIMIZING PRINT ENVIRONMENTS WITH COST-EFFECTIVE, HIGH- PERFORMANCE SOLUTIONS

With a strong foundation built on customer-first service, we continue to grow by helping organizations optimize their print environments, reduce costs, and improve operational efficiency. We offer a full portfolio of Managed Print Services (MPS), imaging equipment sales and service, and a wide selection of OEM and remanufactured ink, toner, paper, and media products.

Our mission is simple yet powerful: to deliver exceptional service through a deep understanding of each client's unique needs. By offering consultative solutions that generate cost savings and performance improvements, QRX leverages technology and expertise to empower our clients to succeed.
