

2013 Jason Kelly Classic

Reaching the Million Dollar mark in only the 7th year of Jason Kelly Classics gives us lots to smile about. With your support we've raised a huge sum of money for the JDRF, which will help the Canadian Clinical Trial Network find a cure for type 1 diabetes.

A big thanks to all the golfers and volunteers who continuously make this a special day to raise money for diabetes research. You bring your 'A' game, spirit and generosity to make it a great day of golf, fun and camaraderie. We simply could not do this without you. And for those who didn't make it to the tourney, we thank you for supporting us through online donations.

Thanks a Million!

We'd especially like to extend a thanks to our friends at Novo Nordisk Canada, K2 & Associates, City Water International, Westdale Properties, Fabricland and the Doorland Group. This is a stellar group of businesses who contribute generously each year to make this tournament the success it is today.

The money raised to date will help people with diabetes now and in the near future. This alone makes the Jason Kelly Classic all worthwhile. To Jason, Daniel, Gord, Austin, Jeff and Emma and all those living

with diabetes one day there will be a cure and **You Better Believe it!**

JDRF IMPROVING LIVES. CURING TYPE 1 DIABETES.
